

FIRST DAY

September 23d (Friday)

9:00-9:30 Registration

9:30 – 12:00 Opening section

- 9:30-9:40 Opening address
- 9:40-9:50 An exciting 25 years plastic surgery journey (Vasilyev S.A., Chelyabinsk, Russia)
- 9:50-10:00 Regenerative medicine is the plastic surgery future (Vasilyev S.A., Chelyabinsk, Russia)
- 10:00-11:00 Regenerative medicine. Basic instruments and possibilities of its clinical integration (Eremin I.I., Moscow, Russia)
- 11:00-11:40 Cell technologies in aesthetic medicine: current situation (Zorin V.L., Moscow, Russia)
- 11:40-12:00 Discussion

12:00-12:30 Coffee break

12:30-14:00 Section 2: Regenerative surgery in clinical practice: basic aspects

- 12:30-12:50 Current situation in autologous fat grafting: mechanisms, technique, indications for clinical use (Vasilyev V.S., Chelyabinsk, Russia)
- 12:50-13:10 Adipose-derived stromal vascular fraction as a source of regenerative cells (Karpyuk V.B., Krasnodar, Russia)
- 13:10-13:30 PRP in plastic and reconstructive surgery. What is new? (Zorin V.L., Moscow, Russia)
- 13:30-13:50 Platelet Rich Plasma (PRP) for target tissue regeneration. PRP-assisted fat grafting (Sazhiyenko V.V., Odessa, Ukraine)
- 13:50-14:00 Discussion

14:00-15:00 Lunch

15:00-16:30 Face: Part 1 (Plastic Surgery and Cosmetology)

- 15:00-15:15 Ideal face: face proportions analysis (Vasilyev Y.S., Chelyabinsk, Russia)
- 15:15-15:30 Comprehensive approach in facial rejuvenation (Vasilyev S.A., Chelyabinsk, Russia)
- 15:30-16:30 Subsection: Skin
 - 15:30-15:40 PRP in dermatology and trichology (Duzhy A.I., Minsk, Belarus)
 - 15:40-15:50 Autologous fat grafting for rejuvenation and correction of cicatricial damage of skin (Vasilyev V.S., Chelyabinsk, Russia)

- 15:50-16:15 SPRS-therapy (Service for Personal Regeneration of Skin) for restoration of regenerative potential of skin (Zorin V.L., Moscow, Russia)
- 16:15-16:30 Role of volumetric correction in face rejuvenation (Vasilyev I.S., Chelyabinsk, Russia)

16:30-17:00 Coffee break

- 17:00-17:15 Lipofilling in aesthetic surgery of the face: personal experience (Sarukhanov G.M., Saint-Petersburg, Russia)
- 17:15-17:30 Evaluation of the effectiveness of the SVF-enriched fat autotransplantation in contouring surgery of the facial soft tissues (Karpyuk V.B., Krasnodar, Russia)
- 17:30-17:40 How to avoid complications in facial fat grafting (Vasilyev V.S., Chelyabinsk, Russia)
- 17:40-18:00 Discussion: pros and cons of fat graft enrichment (Eremin I.I., Zorin V.L., Karpyuk V.B., Sazhiyenko V.V., Sarukhanov G.M., Vasilyev V.S.)

SECOND DAY

September 24th (Saturday)

9:00-10:00 Face. Part 2 (Head and Neck Surgery, Stomatology)

- 9:00-9:15 Fat grafting in reconstructive surgery of the face (Vasilyev V.S., Chelyabinsk, Russia)
- 9:15-9:30 Possibilities of fat grafting in orthognathic surgery (Vasilyev Y.S., Chelyabinsk, Russia)
- 9:30-9:45 Adipose-derived stromal vascular fraction in reconstructive surgery of supporting tissues of maxillofacial area: personal experience (Karpyuk V.B., Krasnodar, Russia)
- 9:45-9:55 Using of autologous plasma in surgical stomatology (Kiparisov Y.S., Chelyabinsk, Russia)
- 9:55-10:00 Discussion

10:00-11:30 Lipostructure of breast, body and extremities

- 10:00-10:20 Lipofilling for breast (Sarukhanov G.M., Saint-Petersburg, Russia)
- 10:20-10:35 Fat grafting in reconstructive and aesthetic surgery of the breast: personal 6-year experience (Sazhiyenko V.V., Odessa, Ukraine)
- 10:35-10:50 Possibilities of fat grafting in immediate postmastectomy breast reconstruction (Sazhiyenko V.V., Odessa, Ukraine)
- 10:50-11:05 Fat grafting for delayed breast reconstruction (Vasilyev V.S., Chelyabinsk, Russia)

11:05-11:30 Кофе-брейк

- 11:30-11:50 Liposculpture of buttocks (Levitskaya M.G., Saint-Petersburg, Russia)
- 11:50-12:10 Lipofilling of calves (Levitskaya M.G., Saint-Petersburg, Russia)
- 12:10-12:25 Fat grafting in plastic and reconstructive hand surgery (Kazantsev I.B., Tomsk, Russia)
- 12:25-12:30 Discussion

12:30-13:30 Cell technologies, tissue engineering

- 12:30-12:40 Regulatory aspects of using cell technologies in clinical practice (Eremin I.I., Moscow, Russia)
- 12:40-12:55 Adipose-derived stromal vascular fraction in gonarthrosis treatment (Eremin I.I., Moscow, Russia)
- 12:55-13:10 Bone tissue reconstruction with tissue engineered bone grafts (Volozhin G.A., Moscow, Russia)
- 13:10-13:25 Tissue engineering of muscle (Samchuk D.P., Moscow, Russia)
- 13:25-13:30 Discussion

13:30-14:30 Lunch

14:30-16:00 Regenerative surgery in proctology, urology, treatment of chronic wounds and radiation-induced soft tissue damage

- 14:30-14:45 Fat grafting for reconstruction of perineal membrane in patients with urinary incontinence (Lysenko M.A., Odessa, Ukraine)
- 14:45-15:00 Using of PRP for urethrovesical anastomosis enhancement during laparoscopic prostatectomy. Experimental clinical study (Lysenko V.V., Odessa, Ukraine)
- 15:00-15:15 Regenerative surgery for radiation-induced soft tissue damage treatment (Vasilyev V.S., Chelyabinsk, Russia)
- 15:15-15:30 Fat grafting and adipose-derived stromal vascular fraction injection for treatment of recto-vaginal fistula (Teryushkova Z.I., Chelyabinsk, Russia)
- 15:30-15:45 Regenerative surgery as a component of multimodality treatment of lower extremity chronic wounds (Shishmentsev N.B., Chelyabinsk, Russia)
- 15:45-16:00 Discussion

16:00 Closing ceremony
